

# Demands Information of Smart City Construction Application Scenes

## Government Demands

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity
Tianfu Citizen Cloud	Solution	Intelligent Community Application	Collecting Intelligent service solutions, such as intelligent property, intelligent community security, intelligent home, intelligent old-age care, domestic waste classification, shared parking, community terminal screen and so on.	Municipal Committee of Social Affairs	Zhang Kan	17781680723	June-December 2019
		Data Operations Services	Collecting data operation service solutions to expand Tianfu Citizen Cloud data Operations services and develop data-based third-party applications.	Municipal Committee of Social Affairs	Zhang Kan	17781680723	June-December 2019
		Community Popularization Services	Collecting Community Promotion Service solutions to popularize the coverage of Tianfu Citizen Cloud	Municipal Committee of Social Affairs	Zhang Kan	17781680723	June-December 2019
		Intelligent Customer Service	Collecting Intelligent Customer service solutions to assist in querying and handling related affairs, improve customer service efficiency through the knowledge base and human-machine collaboration	Chengdu Tianfu Citizen Cloud Service Co., Ltd.	Chen Yuan Yuan	18782959313	June-December 2019
		AI Assistant	Collecting AI Assistant solutions for the community to provide customized artificial intelligence services based on Tianfu Citizen Cloud user usage habits (including but not limited to voice services, smart queries, filtering, smart alerts, etc.)	Chengdu Tianfu Citizen Cloud Service Co., Ltd.	Chen Yuan Yuan	18782959313	June-December 2019
Pilot Construction of "Future School"	Planning Compilation	Development Planning of "Future School" in Chengdu	Introducing professional institutions or expert groups to draw up the road map of Chengdu's "future school" construction	Chengdu Academy of Educational Sciences	Wang Yan	18683422929	2019-2022

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity
Pilot Construction of "Future School"	Solution	Creating a Pattern of "Future Classroom"	Introducing professional organizations or expert groups to discuss and analyze exhibition courses, study the elements of "future classroom" and the relationship between them, and form a basic model and demonstration model	Chengdu Academy of Educational Sciences	Wang Yan	18683422929	2019-2022
		Evaluation Methods of "Future School"	Introducing professional institutions or industry experts to study the value-added evaluation mode of Chengdu "Future School" pilot units, and exploring the pilot demonstration experience of "Future School" incentive evaluation mode	Chengdu Academy of Educational Sciences	Wang Yan	18683422929	2019-2022
		2019-2021 Jintang County Informational Re-construction and Expanding of the Schools	Project Location: Jintang, Chengdu Estimated Investment Scale: 48.4million yuan Construction Period: 2 years Detailed Demand: Introducing institutions, companies, academies, commonweal organizations, and other 17 newly-built(re-constructed and expanded) schools to implement the informational construction of campus network, monitoring, broadcasting system, online courses, multimedia teaching system, active recording system, and innovative laboratories	Education Bureau of Jintang County	Yang Chao	028-85530833	2019-2021
	Product &Service Demand	Training of Talents in Future Schools	1.Enhance the Principal's Leadership Training Course 2.Seed Teacher Training Course	Chengdu Institute of Educational Science	Wany Yan	18683422929	2019-2022
Intelligent Transportation And Traffic Information Construction	Planning Compilation	Intelligent Transportation Phase III Planning	Introducing third-party institutions such as universities, research institutes, and enterprises, to develop a scientific and feasible three-phase plan	Chengdu Traffic Information Port Co., Ltd.	Du Yu	13541003601	Long-term

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity
Intelligent Transportation And Traffic Information Construction	Infrastructure Construction	(TOCC) Traffic Operation Coordination Center	Project Location: Chengdu Transportation Bureau Estimated Investment Scale: 37.98million yuan Construction period: 2018-2019 Detailed Demand: Introducing construction institutions to build "TOCC data center", "TOCC support platform" and "TOCC application platform"	Chengdu Traffic Information Port Co., Ltd.	Wu Hui	18030890516	June-December 2019
		Intelligent Transportation Phase II	Project Location: Within the Fourth Ring Road of Chengdu Estimated Investment Scale: 2 billion yuan Construction Period: 2016-2020 Detailed Demand: Introducing third-party construction agencies to build hardware facilities and maintain software platforms.	Chengdu Traffic Information Port Co., Ltd.	Du Yu	13541003601	June-December 2019
		Smart Parking Platform Construction	Project Location: Downtown, Chengdu Estimated Investment Scale: 50 million yuan Construction Period: 1year( Phase I) Detailed Demand: Introducing software companies to build the first phase of smart parking platform	Chengdu Jiaotou Group (Chengdu Trading Smart Parking Industry Development Co., Ltd.)	Gao Yuan	13881843468	June-December 2019
	Corporation Collaboration	(TOCC) Traffic Operation Coordination Center	1.Introducing big data companies to develop and utilize traffic big data to provide citizens with more intelligent traffic information services 2.Introducing professional companies to develop transportation big data + new formats such as tourism, catering, and shopping	Chengdu Transportation Bureau Information Center	Yang Fan	028-61887597	Long-term effective
		New Energy Vehicle and Charging Facility Monitoring and Supervision Platform	Introducing professional companies to analyze and apply platform data resources ,and provide application solutions	Chengdu Chengtougou Energy Investment Management Group Co., Ltd.	Hu ChaoWei	18980969119	May-October 2019

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity
"Internet + Medical Insurance Supervision" Smart Monitoring Platform	Solution	Intelligent Monitoring System Optimization and Upgrade	Project Location: Chengdu Medical Insurance Information Center Monitoring Hall Detailed Demand: Upgrading and renovating existing functional modules, optimizing system interface and operation experience, and developing new modules	Chengdu Medical Insurance Information Service Center	Chen Zhi Wen	028-87704660	June-December 2019
		In-depth Development of Big Data Anti-fraud System	Project Location: Chengdu Medical Insurance Information Center Monitoring Hall Construction Period: 2019-2020 Detailed Demand: Deeply developing new models such as drug group abuse, over-medical treatment, and overdue hospitalization	Chengdu Medical Insurance Information Service Center	Chen Zhi Wen	028-87704660	June-December 2019
		Big Data and Artificial Intelligence Technology Based on Clinical Diagnosis and Treatment Knowledge Base	Application Area: Medical insurance intelligent monitoring Achievement Presentation : New system module or algorithm model with a high recognition rate	Chengdu Medical Insurance Information Service Center	Chen Zhi Wen	028-87704660	June-December 2019
Construction of Smart City in Chenghua District (Chenghua, Chengdu)	Solution	Government Data Integration and Sharing Service Platform	Project Location: Chenghua District Smart City Governance Center Estimated Investment Scale: 3 million yuan Construction Period: 2019-2020 Detailed Demand: Introducing enterprises to establish a dynamic management system for information resources catalogs, and realizing real-time sharing and exchange of government information resources data	Smart City Governance Center of Chenghua District	Cheng Pan	028-84301912	June-December 2019

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity
Construction of Smart City in Chenghua District (Chenghua, Chengdu)	Solution	6Major Governance Areas Application Sector Development	Project Location: Chenghua District Smart City Governance Center Estimated Investment Scale: 4.8 million yuan Construction Period: 2019-2020 Detailed Demand: Introducing enterprises to provide application scenario scenes in six areas: economic operation, market supervision, social management, public services, environmental protection, and social appeals	Smart City Governance Center of Chenghua District	Cheng Pan	028-84301912	June-December 2019
	Product & Service Demand	Three Major Carrier Base Station Data Services	Project Location: Chenghua District Smart City Governance Center Estimated Investment Scale: 2.8 million yuan Construction Period: 2019-2020 Detailed Demand: Introducing enterprises to build algorithm models by aggregating operators' data resources	Smart City Governance Center of Chenghua District	Cheng Pan	028-84301912	June-December 2019
		Port Docking and Data Exchange Services	Project Location: Chenghua District Smart City Governance Center Estimated Investment Scale: 1.3 million yuan Construction Period: 2019-2020 Detailed Demand: Introducing enterprises responsible for port docking and data exchange services to realize urban (county) cascading docking, data exchange between departments	Smart City Governance Center of Chenghua District	Cheng Pan	028-84301912	June-December 2019
Construction of Smart City in Longquanyi District (Longquanyi, Chengdu)	Planning Compilation	Top-level Planning for Smart City Construction in Longquanyi District	Introducing planning, design institutes, research institutes, enterprises, and other third-party organizations to prepare top-level planning for smart cities in Longquanyi District	Chengdu Longquanyi District Administrative Examination and Approval Bureau	Sun Kui	028-88450910	June-December 2019

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity
Construction of Smart City in Longquanyi District (Longquanyi, Chengdu)	Planning Compilation	Detailed Planning of New Smart City Model District in Dong' an Lake Area of Longquanyi District	Introducing planning and design institutions, research institutes, enterprises, and other third-party institutions to make the detailed planning of the new smart city model area in Dong'an Lake Area	Chengdu Longquanyi District Administrative Examination and Approval Bureau	Sun Kui	028-88450910	June-December 2019
	Infrastructure Construction	Bus Intelligent Platform	Project Location: Longquanyi District Estimated Investment Scale: 4-5million yuan Construction Period: 2019-2021 Detailed Demand: Introducing third-party organizations for detailed design and implementation	Chengdu Longquanyi District Transportation Bureau	Zou WenFang	18180900031	June 2019 - December 2021
	Solution	Longquanyi District Economic Big Data Management Platform	Introducing third-party institutions to build a platform, economic data integrated management system, economic data monitoring system, economic early warning and decision support system, mobile APP, economic data visualization display and other modules in one economic big data platform	Chengdu Economic Development and Reform Bureau	Xia Jing	028-84845115	June 2019
		Longquanyi District Smart Management Center Information System (Phase II)	Introducing third-party organizations to improve the information system function of the District Smart Management Center	Chengdu Longquanyi District Administrative Examination and Approval Bureau	Sun Kui	028-88450910	June-December 2019
Xindu District Smart Government (Xindu, Chengdu)	Product & Service Demand	Xindu District Smart Governance Center Construction Service	Introducing third-party institutions to build area smart governance center to ensure that all-weather online monitoring, analysis and forecasting, and emergency command requirements can be realized	Xindu District Administrative Examination and Approval Bureau	Wu DeWei	028-89398636	June-December 2019

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity
Xindu District Smart Government (Xindu, Chengdu)	Product & Service Demand	Xindu District E-government External Network Operation and Maintenance Management Service	Introducing third-party organizations to conduct operation and maintenance management of the e-government extranet in Xindu District	Xindu District Administrative Examination and Approval Bureau	Wu DeWei	028-89398636	June-December 2019
		Xindu District E-government Extranet Upgrade Services	Introducing third-party organizations to upgrade the e-government extranet of Xindu District	Xindu District Administrative Examination and Approval Bureau	Wu DeWei	028-89398636	June 2019
Governance of Smart City in WenJiang District (WenJiang, Chengdu)	Solution	Smart Governance Center Platform System	Collecting smart governance center platform system solutions with functions such as command and dispatch, conferences and meetings, departmental duty, etc	Wenjiang District Administrative Examination and Approval Bureau	Zhong JiaMin	18190687837 028-82761637	June-August 2019
		Government Big Data Sharing Application Platform System	Collecting government system big data sharing application platform system solutions	Wenjiang District Administrative Examination and Approval Bureau	Zhong JiaMin	18190687837 028-82761637	June-August 2019
		Environmental Protection Online Precision Measurement and Early Warning System	Collecting environmental-friendly online precision measurement and early warning system solutions	Yongsheng Town People's Government of Wenjiang District	Tang Bao	028-82706277	June-October 2019

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity
Governance of Smart City in WenJiang District (WenJiang, Chengdu)	Product & Service Demand	5G Smart Street Light	Application Location: urban trunk roads, scenic spots, factories, parks, and pedestrian streets; Achievements: Automatic adjustment of brightness, damage alarm, single light control, lighting monitoring, etc	Wenjiang District Comprehensive Administrative Enforcement Bureau	Wang Ai Ping	028-82668909	June-December 2019
		Direct Drinking Water Facility	Equipment Requirements: using five-stage purification and filtration device, equipped with power leakage protection device, water leakage and water shortage protection device, real-time monitoring device, etc	Wenjiang District Comprehensive Administrative Enforcement Bureau	Wang Ai Ping	028-82668909	June-December 2019
Smart Tourism Big Health Project Construction	Infrastructure Constructions	Health Medical Technology Industrial Park	Estimated Investment Scale: 5 billion yuan Construction Period: 3 years Detailed Demand: introducing healthy high-end management brands or hospitals, constructing health care high-end hotels, health management centers and medical research centers	Li Bing Culture Creative Tourism Industry Function Area	Ma Jing	18782253747	June-December 2019
		Qingcheng Lantian International Kangyang Tourism Resort	Estimated Investment Scale: 5 billion yuan Construction Period: 3 years Detailed Demand: Introducing third-party construction agencies to implement the overall infrastructure construction and operation of the project	Dujiangyan City Health and Welfare Bureau	ChengBin	13880608389	June-December 2019
Chengdu "Two-Car Guards" Operation Platform	Solution	Location Service Solution	Collecting location service solutions using Beidou satellite navigation system to provide location services for battery vehicles and motorcycles	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity	
Chengdu "Two-Car Guards" Operation Platform	Infrastructure Constructions	"Two-Car Guards" operation platform construction and Beidou Vehicle Terminal Equipment Installation	Estimated Investment Scale: 30 million yuan Construction Period: 2019-2020 Detailed Demand: Through comparison and selection, installing the Beidou terminal and developing the platform software of Beidou.	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019	
	Resource & Factor	Software Developer	Software developer based on Beidou satellite positioning navigation system	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019	
	Cooperation Demand	Partner Company	Seeking cooperation with companies with Beidou satellite application qualifications, experience in providing location services, managing and operating vehicles using electronic means	Zhongrong Security Group Co., Ltd.	ZhengChuanLi	028-86759731	June-December 2019	
	Product & Service Demand	Platform Operation Service		Seeking platform operators that guarantee platform stability and provide big data analysis	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019
		Beidou Vehicle Terminal Hardware		GB/T19056, Satellite receiving channel not less than 12, sensitivity better than -130dBm, minimum position update rate is 1Hz, hot start to achieve capture time not more than 10s, etc	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019
Chengdu Smart Community Comprehensive Treatment Project	Planning Compilation	Design and Planning of Automatic Collection Technology for Comprehensive Management Data of Chengdu Smart Community	Introducing third-party organizations to compile the design plan for the automatic collection technology of the comprehensive data of Chengdu Smart Community	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019	

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity
Chengdu Smart Community Comprehensive Treatment Project	Planning Compilation	Automatic Data Collection of Communities Scheme	Seeking automatic collection schemes for comprehensive management data of smart communities	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019
	Resource & Factor	Face Recognition Access Control Device Integration Technology	Application Areas: access control authorization, vehicle access authorization Result Presentation Format: sample Progress Requirements: 2019-2020	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019
		Video Image Processing Professional and Technical Personnel	Required Majors: computer-related majors Required Qualifications: Bachelor degree or above Required Abilities: proficient in image processing, image segmentation, more than three years of image processing or computer vision related research and development experience	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019
	Product & Service Demand	Planning Consultation	Introducing third-party organizations to provide consulting services such as smart community and community comprehensive governance development planning, development trends and path analysis	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019
		Smart Community Related Hardware	Portrait video capture camera, face recognition server, access control equipment, roadway gate, an internal network switch, pipeline, and other auxiliary materials	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019

Detailed Scene	Types of Demand	Project Name	Detail	Project Owner	Contact Person	Telephone Number(+86)	Information Validity
Chengdu Smart Community Comprehensive Treatment Project	Product & Service Demand	Network Transmission Bandwidth Service	Network bandwidth leasing service provided by telecom operators	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019
	Information Directory	Recruitment Information	<a href="http://www.cdbaoan.cn/">http://www.cdbaoan.cn/</a>	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019
		Product and Services Purchasing Information	<a href="http://www.cdbaoan.cn/">http://www.cdbaoan.cn/</a>	Zhongrong Security Group Co., Ltd.	Zheng ChuanLi	028-86759731	June-December 2019
IoT platform of Communities	Infrastructure Construction	Intelligent Habitat IoT Platform Operational Requirements	<p>Project Location: All new residential areas and some old residential areas in Xingcheng Habitat</p> <p>Estimated Investment Scale: 12 million yuan</p> <p>Construction Period: December 2018 - October 2019</p> <p>Detailed Demand: Introducing various service eco-enterprises to participate in platform operation and create a community life APP client and management, as well as a talent rental platform and a property service platform</p>	Chengdu Xingcheng Habitat Real Estate Investment Group Co., Ltd.	Wang Lin	028-85975103	June-October 2019
